Dynamic Web Site Isn't Just For Large Companies Anymore. . .

In order to remain competitive in today's fast-paced economy, companies need to maintain a presence on the World Wide Web. Designed for the growing organizations that want to take advantage of the great potential offered by the internet market.

. . . While working with limited budget for Information Technologies.

Littoral™ offers:

- A Multilingual, Customizable and user maintainable e-commercial presence for your customers
- A great promotional tool for your products
- A package and deployment methodology that ensures a quick and efficient deployment
- An unbeatable return on investment at a price that makes sense for your business

Littoral™ features are designed to facilitate every step of maintaining your web site, from the initial configuration of the solution to the daily products and services updates.

Littoral™ removes many of the traditional pains associated to web maintenance. It does so by making the maintenance process as easy as it is to write an e-mail. . . You will not be dependant upon experts or webmasters to support and maintain your presence on the web.
